

EN2160 - Electronic Design Realization

Identify the product

THILAKARATHNE D.L.J. 200650U

This is submitted as partial fulfilment of module EN2160 - Electronic Design Realization

March 26, 2023

Morse Code Module

- This module can be used for decoding and coding Morse code.
- Code sending process: ASCII code input is received by the module, converted into Morse code, and then converted into audio signal.
- Code receiving process: It converts the received audio signal into Morse code, and then convert it into ASCII code and sends it.
- This module can be used for Morse code learning, Morse code decoding and Morse code coding.
